

SC21 implementation starter pack overview

SBAC

SC
21

SC21 is an industrial change programme, developed by the UK aerospace and defence industry, designed to accelerate the competitiveness of the aerospace & defence industry by raising the performance of its supply chain

step 1
awareness

step 2
sign up
to SC21

step 3
action plan

step 4
recognition

SC21 commitments

seven commitments that all signatories agree to implement:

✓ **a new business culture:** we will work openly and transparently through sharing information and working collaboratively to deliver benefits across the industry

✓ **delivering innovation:** we will build on success to enable our industry to be a leader in the development of competitive value chains

✓ **through life solutions:** total through life costs are of paramount importance to our customers. More planning and forecast data will be made available, and transparency encouraged

✓ **delivering the SC21 plan:** adherence to our commitments will be tested and measured and published accordingly

✓ **leadership:** we will encourage colleagues in the industry, including our customers and suppliers to join SC21, both as signatories and active participants

✓ **ethical practices:** we will ensure that all business is conducted in a principled manner, with the highest degree of personal and business integrity

✓ **increased pace of change:** our rate of change and improvement will be at an accelerated pace

successful achievement of these commitments will enable a improved business environment
