

Health & Safety Policy

A world where computers can operate reliably in any environment for the benefit of mankind

CAPTEC

Captec aims to be the recognised global leader in Industrial Computer Systems, with high quality, reliable products, excellent customer service, and responsible management of our people and processes.

Tried, Tested and Trusted

Our people are our greatest asset and their health, safety and welfare is our highest priority.

We expect all employees to co-operate and act responsibly on safety matters, taking care of their own safety and that of others, whether from within the company or from outside, who may be affected by their actions.

Health and safety regulations, and other relevant requirements will be regarded as setting the minimum standards of our performance. Where no regulations exist, Captec will set it's own exacting standards.

We will encourage, train and inspire all our people to actively participate in this commitment. We will review this policy at least annually to ensure it continues to provide a suitable framework for effective health and safety management.

Max Toti - Managing Director
